Swiss Post Solutions Ltd receives ISO 27001 Certification

News Release – 29.10.09

Swiss Post Solutions, a leading provider of mailroom and document outsourcing solutions, announced today that as of October 21st, 2009 it achieved the International Organisation for Standardisation (ISO) 27001 certification for its UK operations.

ISO is the world's largest developer and creator of standards that specify worldwide requirements for products, services, processes, materials and systems. ISO 27001 is the international standard developed specifically for Information Security Management Systems (ISMS), requiring that a company uses a systematic approach to managing sensitive information and ensuring data security.

"As a provider of mail handling and document processing services, this certification is an important demonstration of our commitment to the highest standards of internal security," said Jonathan King, CEO of Swiss Post Solutions Ltd. "We are committed to the ISO 27001 ethos and working standard, and the robust policies and execution procedures that support this are vital to our operating culture. The ISO 27001 certification demonstrates that customer information management is a top priority us and lets our customers, partners and prospects know that we take the protection of their data extremely seriously."

ISO 27001 comprises 10 detailed control categories including: information security policy, security organisation, asset classification controls, personnel security, physical security, communication management, access controls, system deployment, continuity planning and compliance.
